

Manufacturer of High Strength Fasteners Since 1946

Manufacture of Fasteners & Secondary Processing Capabilities

DRILLING AND TAPPING

HOLE DIAMETERS .020 - .500, UP TO 6.00 DEEP

- Head, body, core drill
- Vent, corner, cross, spanner holes
- Flow , fluid, air testing

CENTERLESS GRINDING

CONCENTRICITY HELD .0005 T.I.R.

INFEED

Diameter
.100 - 1.00, up to 8.00 long
(multiple diameters)

- Form grinding
- Taper grinding

THRUFEED

Diameter
.100 - 5.00, up to 144.00 long

- Taper grinding

CNC MACHINING

DIAMETER #2 - 6.00, UP TO 24.00 LONG

- Swiss turning
- Milling
- Cnc turning
- Automatic screw machining

THREAD ROLLING & KNURLING

DIAMETER AND LENGTHS ARE PROCESS SPECIFIC

- Diamond, diagonal, and straight knurl with diameter .090 - 1.00, Up to 4-5/8 long
- Standard, metric, special with single or multiple leads, left or right hand
- Certified class 2 & 3 threads
- Thread repair/re-roll

HAND FEED

Diameter #2 - 7/8, up to 4-5/8 long

HIGH-SPEED AUTOMATIC

Diameter #6 - 1/2 and m3 - m12, up to 4-5/8

Cage Code: 1B450
QSLM Class 2 & 3 Certified

DUNS Code: 004218145
ISO 9001:2015 Certified

NAICS Code: 332722
Turned Product and Screw,
Nut, and Bolt Manufactur
Corporate Status

7400 Northfield Rd, Walton Hills OH 44146 440-232-0885 www.dunhamproducts.com

Manufacturer of High Strength Fasteners Since 1946

Manufacture of Fasteners & Secondary Processing Capabilities

Industries Served:

- Aerospace
- Agricultural
- Automotive
- Commercial
- Energy Power
- Mining
- Military
- Mining
- Nuclear
- Race Hard-

Materials:

DFARS & ROHS Compliant

Ferrous:

- Alloy Steels
- Carbon Steels
- Monel
- Super Alloys
- Stainless Steel

Non-Ferrous:

- Aluminum
- Brass
- Bronze
- Copper
- Titanium
- Polymers
